

Risk Assessment for: COVID 19	Assessment Date: July 2020	Review date due: as and when new information is issued
Location: SALT – St James’ CE Academy	Assessment completed by: Sentamu Academy Learning Trust Central Services in association with CEO/Heads/Principals	Version number: 6 – following consultation with Trade Unions during week beginning 13 th July
Who is at risk	– Staff, pupils, visitors, contractors	

N.B. If you don’t have access to the internet where links are shown for more information please contact the school office (parents) or Human Resources (staff) for more information. This document should be read in conjunction with the DFE Guidance for opening schools May 2020

Hazards	Current control measures in use	Further Control measures	Action	Complete d Date
<p>What are the specific sources of harm?</p> <p>Spread of Covid 19</p> <p>Covers section 1,2, 3, 5, 6, 7, 8 and 9 of the government guidance</p>	<p><u>Raising Awareness</u></p> <p>To help reduce the spread of coronavirus (COVID-19) remind everyone of the public health and Government advice - https://www.publichealth.hscni.net/news/covid-19-coronavirus</p> <ul style="list-style-type: none"> Regularly review public health/Government advice Clearly communicate any changes in work practice and use of the facilities to staff, parents, students and other potential visitors Encourage staff and students to avoid touching faces with unwashed hands. <p><u>Hand Washing</u></p>	<p>Posters, leaflets and other materials are available and displayed in all communal areas and classrooms. https://www.gov.uk/government/publications/guidance-to-employers-and-businesses-about-covid-19</p> <p>https://www.gov.uk/government/publications/actions-for-schools-during-the-coronavirus-outbreak/guidance-for-full-opening-schools</p> <p>Issue Infection control policy to provide guidance to staff, parents, students (age specific) visitors and contractors.</p> <p>Feedback from staff about new arrangements will be sought and considered.</p> <p>Hand washing stations clearly signposted. Staff and students to be reminded on a regular basis to wash their hands for 20 seconds with water and soap, and the</p>	<p>Who will act and when?</p> <p>MW to draft</p> <p>Posters to promote hand</p>	

	<ul style="list-style-type: none"> • Hand washing/sanitising facilities available at strategic places including on arrival and exit of premises, toilets and where food will be eaten (classroom bubbles) • Hand washing facilities with soap and water preferred but hand gel sanitisers (with a minimum) 60% alcohol can be used as an alternative and where washing facilities not readily available. • Hands should be washed/sanitised after sneezing or coughing, before and after handling food or going to the toilet. • Posters in all areas of the school remind staff and pupils to follow the handwashing guidance • Stringent hand washing taking place. See hand washing guidance. https://www.nhs.uk/live-well/healthy-body/best-way-to-wash-your-hands/ • Drying of hands with disposable paper towels (preferred) or hand driers where soap and water is used. • Hand washing/sanitising stations are available in each KS1 classroom as well as the year 1 or year 2 designated toilet area. Year 6 children will wash their hands on entry and exit to the school in their classroom as well as in the KS2 toilets. Year 5 children will wash their hands in their classroom and when possible in the KS2 toilets. Year 3 and 4 children will wash their hands in the mobile classroom toilets, entering one at a time. EYFS children use the toilets within their classroom for hand washing under supervision. Staff in all classrooms will use the hand washing station within their own area for hand washing. Access to the KS1 and KS2 toilets at the beginning and end of the day will be easier because of the staggered start and finish times in phases. • Staff and students encouraged to protect the skin by applying emollient cream regularly – (not provided as shared use of such products may spread infection) https://www.nhs.uk/conditions/emollients/ <p>Cleaning</p>	<p>importance of properly drying hands. Also reminded to catch coughs and sneezes in tissues – Follow Catch it, Bin it, Kill it and to avoid touching face, eyes, nose or mouth with unclean hands. Tissues will be made available throughout the school.</p> <p>Encourage staff and students to report any problems e.g. allergies to soap/hand gel and carry out skin checks as part of a skin surveillance programme https://www.hse.gov.uk/skin/professional/health-surveillance.htm</p>	<p>washing and catch it...</p>	
--	--	---	--------------------------------	--

	<p>See section below</p> <p><u>Social Distancing</u> Social Distancing -Reducing the number of persons in any work area to comply with the 2-metre between adults and the students they are working with. 1 metre between students and bubbles of year groups where possible (this is not possible within class bubbles)</p> <p>Interaction between year groups and sharing of resources to be minimised as much as possible. For individual and very frequently used equipment, such as pencils and pens, it is recommended that staff and pupils have their own items that are not shared.</p> <p>Staff can work across different groups in order to deliver the school timetable, but they should keep their distance from pupils and other staff as much as they can (ideally 2 metres apart).</p> <p>https://www.publichealth.hscni.net/news/covid-19-coronavirus https://www.gov.uk/government/publications/covid-19-guidance-on-social-distancing-and-for-vulnerable-people</p> <p>Interaction between groups of staff/students and sharing of resources to be minimised as much as possible.</p> <p>Taking steps to review work schedules including start & finish times/ working patterns etc.</p> <p>Redesigning processes to ensure social distancing in place. Zoom calls to be used instead of face to face meetings if possible, eg for collective worship etc.</p> <p>Social distancing also to be adhered to in social areas and on the playground/field where possible</p> <p>Staff to ensure that hands and personal belongings are cleaned safely on arriving at work. When they return home they are advised to change their clothes and wash them (storing them in a</p>	<p>Staff and students to be reminded on a daily basis of the importance of social distancing both in school and outside of it. Management checks to ensure this is adhered to.</p> <p>Details to be maintained for any groups devised.</p> <p>Social distancing perimeters to be marked up where possible, including on the playground.</p> <p>Equipment should be cleaned frequently and meticulously and always between classes, or rotated to allow them to be left unused and out of reach for a period of 48 hours (72 hours for plastics) between use by different classes.</p> <p>Tables and chairs to be set out in side by side position with all students facing forwards (not facing each other).</p> <p>Individual work areas eg within classrooms and the school office, communal areas eg, staffroom to be signed indicating the maximum number of people who can safely be in there in order to maintain social distancing (includes staff and students). Allocate a chair per child and no sharing of equipment where possible. If not possible this should be taken into account in the cleaning rota/schedule.</p> <p>Uniforms should be worn and parents will be advised that students clothes should be washed daily and they should not bring any items to school other than packed lunches, a bottle of water, PE kit and/or medical items. Appropriate cleaning of items and clothes should be conducted daily. A mindful approach to non-compliance in the case of parents facing financial difficulties. PE kit bags brought into school on Monday and taken home for washing every Friday. Reading books will be issued on Mondays changed the following week if necessary.</p>		
--	---	---	--	--

	<p>plastic bag if this is not possible straight away) and wash their hands, clean mobile phones etc. Contact with household members should be avoided until this has been completed.</p> <p><u>PPE</u> <i>Public Health guidance on the use of PPE (personal protective equipment) to protect against COVID-19 relates to health care settings. In all other settings individuals are asked to observe social distancing measures and practice good hand hygiene behaviours.</i></p> <p>PPE will only be required in a small number of cases, such as working with pupils who require intimate care needs and administering medication or first aid. Staff will also wear PPE when working with SEND children who require physical 'guidance or support'. PPE will not be worn by pupils.</p> <p>Where PPE is a requirement for risks associated with the work undertaken the following measures will be followed-</p> <p><i>Plastic aprons, face visors, gloves and masks will be provided with appropriate guidance on their use.</i></p> <p><u>Wearing of Gloves</u> Where Risk Assessment identifies wearing of gloves as a requirement of the job, an adequate supply of these will be provided e.g. to administer first aid, to carry out personal care task and cleaning tasks where potentially contaminated items may have to be handled.</p> <p>Staff will be instructed on how to remove gloves carefully to reduce contamination and how to dispose of them safely.</p> <p><u>Wearing of face masks/face shields</u> Where Risk Assessment identifies wearing of a facemask or shield as a requirement of the job, an adequate supply of these will be provided.</p>	<p>Consideration given to disposable gloves and eyewear (visor) to prevent and reduce potential contamination where a specific task RA identifies this. Staff wanting to wear PPE in other circumstances should discuss this with their Head and ensure that they follow guidelines for the safe use and cleaning or disposal of such items.</p> <p>Any homemade/ non-disposable face coverings that staff or students are wearing when they arrive at the Academy must be removed by the wearer and put in a plastic bag that the wearer has brought with them in order to take it home. The wearer must then clean their hands.</p> <p>Children will not wear PPE in school as the risk from them touching it repeatedly, sharing PPE etc is greater than if they follow the hand washing, catch it, bin it, kill it rules</p> <p>Reusable PPE should be thoroughly cleaned after use and not shared between workers. These should be stored in suitable places</p> <p>Single use PPE should be disposed of in a bin lined with a plastic bag (double bagged), so that it cannot be reused and to control potential contamination (waste removed by a responsible, approved contractor).</p> <p>Disposal of waste from people with symptoms of coronavirus (COVID-19), such as disposable cleaning cloths, tissues and PPE: put it in a plastic rubbish bag and tie it, when full lace the plastic bag in a second bin bag and tie it put it in a suitable and secure place marked for storage for 72 hours</p> <p>This waste should be stored safely and securely kept away from children. You should not put your waste in communal waste areas until the waste has been stored for at least 72</p>		
--	---	---	--	--

	<p>The general wearing a face covering or face mask in schools or other education settings is not recommended.</p> <p>Staff will be instructed on the use and removal of face coverings to reduce contamination.</p>	<p>hours. Storing for 72 hours saves unnecessary waste movements and minimises the risk to waste operatives. This waste does not require a dedicated clinical waste collection in the above circumstances.</p> <p>Gloves only to be issued where a specific task identifies the requirement for gloves via a separate risk assessment, eg administering 1st aid and carrying out intimate care tasks etc.</p> <p>Staff to be reminded that wearing of gloves is not a substitute for good hand washing</p> <p>Staff should wear a face covering if commuting to work via public transport and this is their only option of getting to work. It should be removed and stored safely on arrival at work prior to entering the building.</p> <p>Only to be issued where a specific task identified the requirement for masks or face shields via a separate risk assessment, eg administering 1st aid and carrying out intimate care tasks etc.</p> <p>Staff can wear a visor and/or face mask optionally if they feel the child/children they are working with are unable to follow social distancing guidelines, or they are carrying out a specific task deemed to warrant the wearing of such PPE (see comment above).</p> <p>Staff will be reminded that they must follow guidance and not consider a face mask or visor as a substitute for good hygiene and other controls.</p> <p>Staff will wear a mask and gloves when liaising with parents at the beginning and end of the day – however, social distancing guidelines will still be followed and parents will not enter the school unless invited to a pre-arranged meeting.</p>		
--	--	--	--	--

	<p><u>Symptoms of Covid-19</u></p> <p><u>Anyone entering the academy should be asked they are suffering with any symptoms of covid-19 as defined by the government and refused entry if they do</u></p> <p>If anyone (staff or student) becomes unwell with</p> <ul style="list-style-type: none"> • a new continuous cough or • a high temperature • or a loss of, or change in, normal sense of taste or smell (anosmia) they will be advised to stay at home or be sent home and advised to follow the stay at home guidance. <p>If a member of staff or student becomes unwell whilst at the academy arrangement should be made for them to leave as soon as possible, if there is a delay they should be removed to the designated isolation room (the opportunities group classroom), with a closed door, ideally with an open window for ventilation. At this point the visitors' toilet opposite the head's office will become the designated toilet for anyone in isolation, signage to this effect will be put in place and this toilet will not be used again until it has been deep cleaned at the end of the day.</p> <p>Active engagement in track and trace - anyone with symptoms must self isolate for 7 days and arrange for a test. The results of this test should be communicated to the head. Details should be provided of anyone they have been in contact with should they test positive. Members of their household should self isolate for 14 days.</p> <p>Line managers will maintain regular contact with staff members during this time.</p> <p>If advised that a member of staff or public has developed Covid-19 and were recently on our premises (including where a member of staff has visited other work place premises such as domestic premises), the headteacher or deputy head will contact the Public Health Authority to discuss the case, identify people</p>	<p>The latest Government advice for members of the public with symptoms can be found at: https://www.gov.uk/government/publications/covid-19-stay-at-home-guidance/stay-at-home-guidance-for-households-with-possible-coronavirus-covid-19-infection</p> <p>Education and childcare workers, including support and teaching staff are classed as essential workers and as such have priority access to covid-19 testing, details of how to do this can be found at: https://www.gov.uk/guidance/coronavirus-covid-19-getting-tested#arrange-a-test-if-youre-an-essential-worker</p> <p>Anyone over the age of 5 can request a test, students' parents who are not classed as essential workers can do this via the NHS website. https://www.nhs.uk/conditions/coronavirus-covid-19/testing-for-coronavirus/ask-for-a-test-to-check-if-you-have-coronavirus/</p> <p>Staff or students should continue to report unplanned absences via the normal absence reporting procedures confirming whether or not they are having to self-isolate due to having symptoms of or have been confirmed as having Covid-19.</p> <p>If schools have two or more confirmed cases within 14 days, or an overall rise in sickness absence where coronavirus (COVID-19) is suspected, they may have an outbreak, and must continue to work with their local health protection team who will be able to advise if additional action is required.</p> <p>PPE packs to be readily available for those risks identified.</p>		
--	---	--	--	--

	<p>who have been in contact with them and will take advice on any actions or precautions that should be taken. https://www.publichealth.hscni.net/</p> <p>If a child, young person or other learner becomes unwell with symptoms of coronavirus whilst in school, and needs direct personal care until they can return home, a face mask should be worn by the supervising adult if a distance of 2 metres cannot be maintained. If contact with the child or young person is necessary, then gloves, an apron and a face mask should be worn by the supervising adult. If a risk assessment determines that there is a risk of splashing to the eyes, for example from coughing, spitting, or vomiting, then a visor should also be worn.</p> <p><u>Drivers</u></p> <p>Persons should not share vehicles or cabs, where suitable distancing cannot be achieved.</p>			
<u>Mental Health</u>	<p>Management will promote mental health & wellbeing awareness to staff and students during the Coronavirus outbreak and will offer whatever support they can to help.</p> <p>Consideration will be given to the impact on work load and staff wellbeing when planning changes in practice e.g. increased student attendance whilst also providing remote education to students not attending school.</p> <p>Staff and parents are encourage to share any concerns about attending site</p>	<p>Line managers will offer support to staff who are affected by Coronavirus or has a family member affected</p> <p>Regular communication of mental health information and open door policy for those who need additional support.</p> <p>Regular contact with all staff and students to be maintained.</p> <p>Staff signposted to where they can find further support both in and out of the organisation. (See staff wellbeing paper)</p>		
<u>Access/ egress to site</u>	<p>Each Academy to review and implement site specific solutions.</p> <p>Where possible, the following practices will be considered:</p> <p>Stop all non-essential visitors or on site workers.</p> <p>Introduce staggered start and finish times to reduce congestion and contact at all times.</p> <p>Monitor site access points to enable social distancing – you may need to change the number of access points, either increase to</p>	<p>Stagger drop off and collection times and minimise adult to adult contact.</p> <p>Parents notified of their child’s arrival and time of departure during week beginning 13th July to help prepare for full September opening. Only one parent per family to accompany children onto the school site</p> <p>Encourage visits via remote connection/ working where possible.</p>		

	<p>reduce congestion or decrease to enable monitoring.</p> <p>Require all staff, students, visitors and workers to wash or clean their hands before entering or leaving the site. Upon arrival at the school reception area, visitors are directed to call the school office to ask if they are able to enter – this ensures only one person at a time is in the small foyer.</p> <p>Upon entering the school, visitors will give their details to a member of the office staff who will record their name, who they are visiting and an entry and exit time. Visitors will then be asked to take a green or red visitors’ sticker (dependent upon whether they have a DBS check or not)</p> <p>Allow plenty of space (two metres) between people waiting to enter site</p> <p>Regularly clean common contact surfaces in reception, office, access control and delivery areas e.g. screens, telephone handsets, desks, particularly during peak flow times.</p> <p>Drivers should remain in their vehicles if the load will allow it and must wash or clean their hands before unloading goods and materials.</p> <p>Remind parents/carers that they should not gather at entrance gates or doors, or enter the site without a pre-arranged appointment</p>	<p>Revise visitor arrangements to ensure social distancing and hygiene, for example, contactless signing in procedure, eg office staff to record name of visitor/ time in/ out etc</p> <p>Appropriate signage will be in place, and visitors will be made aware of the procedures prior to attending the school.</p> <p>Conduct separate risk assessment for staff/practices where there will be in increased expose to visitors, delivery drivers and/or contractors.</p> <p>Inform contractors and suppliers of any changes that will affect them.</p> <p>Review emergency evacuation procedures and assembly points in line with social distancing measures where possible</p>		
<p><u>Staffroom/ breaks</u></p>	<p>Where possible staff/ students to stay on site once they have entered and not use local shops.</p> <p>Break times should be staggered to reduce congestion and contact at all times.</p> <p>Sit 2 metres apart from each other whilst eating and avoid all contact with others. Students 1 metre distancing can be implemented within classrooms where possible (packed lunches eaten in classrooms)</p>	<p>Children will eat packed lunches within their own classroom – packed lunches will be delivered to the door by kitchen staff</p> <p>Staff working within year group bubbles will use their own designated space for breaks and their lunch - one area for y5 and y6, one for KS1 and one for EYFS staff as well as a separate area for staff working in years 3 and 4 (cloakroom of mobile classroom) where they will have access to their own fridge/ kettle etc. All of these areas are well away from the bubbles where the children are working and eating. Staffing</p>		

	<p>Where catering is provided, it should provide pre-prepared and wrapped food only</p> <p>Drinking water should be provided with enhanced cleaning measures of the tap mechanism introduced.</p> <p>Tables and chairs should be cleaned between each use.</p> <p>All rubbish should be put straight in the bin and not left for someone else to clear up.</p> <p>Hand sanitizers to be located at access and egress points particularly in food areas.</p> <p>Within the staffroom and other staff rest areas, notices will be on display reminding staff to wipe down taps, kettle, boiler, fridge doors etc (prior to hand washing).</p>	<p>has been carefully arranged to ensure that all staff have a complete break each morning and across lunchtime.</p> <p>All areas used for eating must be thoroughly cleaned at the end of each break, including chairs, door handles etc.</p> <p>Stagger breaks and lunches so that all children are not going outside at the same time.</p> <p>Where possible, and it's safe to do so, take breaks outdoors maintaining the 1m distance (the playground, and where possible the field, will be marked out).</p> <p>Ensure catering department have updated their HACCP (health analysis critical control point) to reflect COVID-19.</p> <p>Set tables up so that they are side by side and not facing each other.</p>		
<p><u>Working within 2 metres of a working team</u></p>	<p>Always consider if the task can be performed differently without having to breach the 2m social distancing rule.</p> <p>Staff are to limit face to face working and work facing away from each other when possible.</p> <p>Limit the frequency of working within 2m to an absolute minimum and ensure it is for strictly low intensity, sporadic work where exposure to this distance is less than 15 mins</p> <p>Limit the number of people allowed in a space at any one time</p> <p>Consider introducing an enhanced authorisation process (permit to work) for activities where less than 2m distance may be required e.g. site facilities staff.</p> <p>Provide additional supervision to monitor distancing and teams not to be rotated.</p> <p>Continue to conduct dynamic risk assessments whilst completing the work and speak up if there is a safer way of completing the task.</p>	<p>Screening to be put in place wherever possible and where 2m rule cannot be implemented.</p> <p>Remind staff and students to not share work items such as pens etc. Each child to be provided with their own stationery and other equipment that they do not share with others where possible.</p> <p>Maximum people limits clearly signposted.</p> <p>Schedule maintenance/contractor work outside the school day where possible.</p>		

	<p>All equipment to be thoroughly cleaned prior and after using it.</p>			
<p><u>Transport arrangements for children continuing to attend educational settings</u></p>	<p>No school trips planned for the autumn term. One child LAC child travels to school via taxi organised by the LA:-</p> <p>Local authorities should continue to provide transport for children and young people with EHC plans and those who are looked after who are continuing to attend their usual educational setting. If children and young people with EHC plans are accessing an educational setting that is not local or their usual setting, we would expect the local authority to review transport arrangements and endeavour to make appropriate provision for children to reach their educational setting safely.</p> <p>We will work closely with local authorities to put the necessary arrangements in place to support children.</p> <p>See DfE guide for further advice regarding school transport (p6)</p> <p>https://www.gov.uk/government/publications/coronavirus-covid-19-implementing-protective-measures-in-education-and-childcare-settings/coronavirus-covid-19-implementing-protective-measures-in-education-and-childcare-settings</p> <p>Staff and students should avoid the use of public transport and sharing vehicles with members of other households where possible.</p> <p>Where this can not be avoided please follow government travel guidelines: https://www.gov.uk/guidance/coronavirus-covid-19-safer-travel-guidance-for-passengers#contents</p>	<p>A partnership approach between local authorities, schools, trusts, dioceses and others will be required. In particular, it is imperative that schools work closely with local authorities that have statutory responsibility for 'home to school transport' for many children, as well as a vital role in working with local transport providers to ensure sufficient bus service provision. DfE will shortly publish new guidance to local authorities on providing dedicated school transport, based on the framework outlined here.</p> <p>Schools should work with partners to consider staggered start times to enable more journeys to take place outside of peak hours. We recognise that this option will be more feasible in some circumstances than others.</p> <p>Schools should encourage parents, staff and pupils to walk or cycle to school if at all possible. Schools may want to consider using 'walking buses' (a supervised group of children being walked to, or from, school), or working with their local authority to promote safe cycling routes.</p> <p>Local Authority are liaising with local transport providers</p> <p>The school is not responsible for transporting children to the site.</p>		

<p><u>Class or group sizes</u></p>	<p>Academies will conduct their own individual assessment of class sizes and practical working spaces and consideration will be given to the facilities available.</p> <p>For primary schools - schools may be able to implement smaller groups to the size of a full class.</p> <p>Whatever the size of the group social distancing should be encouraged where space allows</p> <p>Staff can work across different groups in order to deliver the school timetable, but they should keep their distance from pupils and other staff as much as they can (ideally 2 metres apart).</p> <p>In all settings it is important to reduce contact between people as much as possible by only mixing children in one group and keeping away from other groups.</p> <p>We recognise that younger children will not be able to maintain social distancing, and it is acceptable for them not to distance within their group.</p>	<p>Consider how to keep small groups of children together throughout the day and to avoid larger groups of children mixing</p> <p>Each year group (between 25 and 31) of children are kept separate from other year groups (class bubbles)</p> <p>Consideration is being given to how play equipment is used, ensuring it is appropriately cleaned between groups of children using it, and that multiple groups do not use it simultaneously. Wherever possible children are given their own play equipment for one day at a time.</p> <p>Remove unnecessary items from classrooms and other learning environments where there is space to store it elsewhere</p> <p>Remove soft furnishings, soft toys and toys that are hard to clean (such as those with intricate parts).</p> <p>Ideally, adults should maintain 2 metre distance from children. We know that this is not always possible, particularly when working with younger children. In particular, they should avoid close face to face contact and minimise time spent within 1 metre of anyone. Similarly, it will not be possible when working with many pupils who have complex needs or who need close contact care. These pupils' educational and care support should be provided as normal (consider use of PPE as above)</p> <p>Reduce the number of people each person has contact with by using 'fixed teams or partnering' (so each person works with only a few others)</p> <p>Where possible hold activities outdoors.</p>		
<p><u>Moving around buildings</u></p>	<p>Reducing movement by discouraging non-essential trips within buildings and sites, for example, restricting access to some areas,</p>	<p>Relevant signage to be put in place to enforce and highlight this.</p>		

	<p>encouraging use of radios or telephones, where permitted, and cleaning them between use.</p> <p>Restricting access between different areas of a building.</p> <p>Reducing job and location rotation.</p> <p>Staff will be advised to take care when moving down our 2 narrow corridors. The key stage 1 corridor has doors with window at each end so that staff can see who is already down there and can manage to socially distance themselves. When moving down the corridor to the staff room, staff will ring the bell that is usually used by children to warn people that a child is within a staff only area.</p> <p>Regulating use of high traffic areas including corridors and the hall, to maintain social distancing.</p> <p>Reduce the number of people on site at any one time so that social distancing can be maintained. Smaller sites may wish to identify a maximum safe number of occupants.</p>	<p>When timetabling, groups should be kept apart and movement around the school site kept to a minimum. While passing briefly in the corridor or playground is low risk, schools should avoid creating busy corridors, entrances and exits. Schools should also consider staggered break times and lunch times (and time for cleaning surfaces in the dining hall between groups).</p> <p>Staggered lunchtimes and break times are timetabled and adhered to</p>		
<p>Cleaning</p> <p>Covers section 4 of the Government guidance</p>	<p>The school caretaker and cleaners will read and apply the following government advice where appropriate https://www.gov.uk/government/publications/managing-school-premises-during-the-coronavirus-outbreak</p> <p>Frequent cleaning and disinfecting of objects and surfaces that are touched regularly, particularly in areas of high use such as door handles, light switches, reception area, using appropriate cleaning products and methods</p> <p>Frequent cleaning of work areas and equipment between uses, using usual cleaning products.</p> <p>Frequent cleaning of objects and surfaces that are touched regularly, such as door handles and keyboards, and making sure there are adequate disposal arrangements.</p>	<p>Each Academy to identify an appropriate cleaning rota for daily and weekly cleaning</p> <p>A cleaner to be present on site every day to be available for cleaning toilets and communal areas</p> <p>In liaison with Hull City Council Cleaning Services, cleaning supplies to be issued with relevant safety data/ COSHH sheets and appropriate staff given training (by HCC team leader on 1st June 2020)</p> <p>Cleaners also on site at the end of a school day.</p> <p>Identify high usage areas to allow enhanced cleaning.</p> <p>Cleaning procedures to be implemented for goods coming in.</p>		

	<p>Clearing workspaces and removing waste and belongings from the work area at the end of a shift.</p> <p>Limiting or restricting use of high-touch items and equipment, for example, printers or whiteboards.</p> <p>If you are cleaning after a known or suspected case of COVID-19 then you should refer to: https://www.gov.uk/government/publications/covid-19-decontamination-in-non-healthcare-settings/covid-19-decontamination-in-non-healthcare-settings</p>	<p>Remove equipment or items not in use as much as possible to assist with cleaning.</p> <p>Fogging of highly used areas to take place at least twice weekly. Preference can be discussed at a local level.</p>		
<p><u>Clinically extremely vulnerable/clinically vulnerable</u></p>	<p>We will follow the government guidelines for clinically extremely vulnerable and clinically vulnerable and have asked staff to confirm if they fall within the following three categories:</p> <p>1: Classed as 'clinically extremely vulnerable' and as such have received a letter from the NHS or your GP</p> <p>2: Live with someone who is classed as 'clinically extremely vulnerable', confirmed in writing as above.</p> <p>3: Classed as 'clinically vulnerable' (as defined by the Government below or click on link) but have not received a letter from the NHS https://www.gov.uk/government/publications/staying-alert-and-safe-social-distancing/staying-alert-and-safe-social-distancing#clinically-vulnerable-people</p> <p>Black, Asian and minority ethnic staff</p> <p>Emerging evidence that is currently being reviewed by Public Health England shows that black, Asian and minority ethnic (BAME) communities are disproportionately affected by COVID-19. This concerning evidence suggests that the impact may also be higher among men and those in the higher age brackets.</p> <p>Principals should ensure that this is taken into consideration when planning the deployment of staff and placement of students.</p>	<p>Update: From 1st August 2020 Clinically Extremely Vulnerable staff and students will be able to attend the academy for work/education providing that suitable covid safe measures are in place e.g. strict social distancing can be maintained, frequent hand washing and cleaning of frequently touched surfaces. Priority for staff in category one should be given to working from home where possible or for the safest available roles on site, even if this means a change of role or adjusting work patterns temporarily. An individual risk assessment should be completed for each CEV person to identify if additional safety measures are needed..</p> <p>Staff and students who fall in category 2 or 3 will be able to attend the academy if social distancing can be adhered to. If they have to spend time within 2 metres of other people the Head/Principal must carefully assess what additional measures can be implemented and discuss with them or their parents whether this involves an acceptable level of risk. An electronic record of such discussions must be kept</p>		

	Sensitive and comprehensive conversations with any BAME staff or parents should take place, to include the identification and discussion of any existing underlying health conditions that may increase the risks for them. The feelings of BAME staff and students particularly with regard to their safety and their mental health should also be considered.	PHE guidance to be reviewed on a regular basis and any risk assessments or policies to be updated accordingly		
Safeguarding	The safeguarding of students both on and off site will continue to be a significant focus of all staff.	Reference should be made to the child protection and safeguarding policy: COVID-19 addendum that can be found on the school website. Record any decisions using the defensible decision log		
Risk assessments/ Policies	Consider updating policies such as – Child Protection Policy Consider updating / adapting risk assessments – food tech, music etc			

Signed: Jane Daniels, Headteacher – September 2020
